

Investing in our Future!

What's my cost?

Voting **Yes!** for **SACS** on November 8th...

In 2016, voters overwhelmingly supported the **Yes! for SACS** renewal of the 2009 referendum approving the 15 cent rate per \$100 home assessed value. Instead of collecting the approved 15 cents, district leaders at the time capped collection at a total dollar amount of \$3.5M-roughly 9 cents per \$100.

SACS has, over the past decade, consistently done more with less, saving property owners nearly \$10M. However, SACS has determined, and the **Yes! for SACS PAC** agrees, current funding no longer supports SACS' needs. More funding is needed to meet the demands of our growing district after adding 727 new students since 2015 and further growth is projected.

When renewed, the **operating** referendum will once again approve the 15 cent rate per \$100 home assessed value but will no longer be capped at \$3.5M allowing the full 15 cents to be invested in the future of SACS by **retaining 46 staff and adding 26 additional personnel**.

For more than 50% of Southwest Allen County voters, the increased cost will be less than \$9 a month.

What's my estimated cost?

Assessed value is NOT the same number as what your house may sell for if you were to list your home today. To view the assessed value of your home, please visit the following: allencounty.us/public-access-tax-info

*Calculations assume the home is qualified as a "homestead" in Indiana, is receiving the mortgage reduction of \$3,000 off of the property value, and that the property owner can deduct the cost of local property taxes against their Federal Income taxes at a Federal Tax rate of 15%.

All values have been rounded to the nearest \$1.

Value of Your Home*	Difference In Monthly Approved Cost (THIS IS WHAT YOU ARE ACTUALLY VOTING FOR)	Difference in Cost Per Month (THIS IS WHAT YOU MAY ACTUALLY EXPERIENCE)
\$50,000	\$0	50 cents
\$100,000	\$0	\$1
\$150,000	\$0	\$3
